

Traveler places alarm in bag and arms alarm with phone. User sets alarm to sound after X hours. If user has not claimed bag at arrival and disarmed.

ALARM
ACTIVATED

SOUNDING
IN
10 HOURS

BAG RETRIEVED.
ALARM DEACTIVATED

If bag lands successfully at destination, traveller uses phone to disarm alarm.

If bag does not arrive at destination and alarm not deactivated, alarm will sound and be noticed by baggage handlers and realize it is a lost bag.

Place GPS tracker in luggage + sync with mobile app.

You luggage has landed safely in Seatac Airport. Please head to carousel 14 to claim.

- check app before takeoff to confirm luggage boarded. Then check upon landing to see if it successfully made the trip with you.

If bag mistakenly flies to wrong address, the app notifies user and provides tracking + helpful instructions on how to reclaim.

Checked Luggage: 1

Flight : 519

Date : 5.25.16
